H. W. FURNISS.

The SECRETARY OF THE TREASURY.

CANADA.

Inspection of immigrants at Quebec.

QUEBEC, CANADA, November 17, 1902.

Week ended Saturday, November 15: Inspected, 258; passed, 258.

W. C. BILLINGS,
Assistant Surgeon.

The SURGEON-GENERAL.

CHINA.

Report from Hongkong—Traffic with Philippines resumed.

HONGKONG, CHINA, October 18, 1902.

For the week ended October 11, 1902, 10 vessels were inspected, 843 individuals were bathed at the disinfecting station, and 1,120 pieces of baggage were disinfected. There were 3 rejections from all causes during the week. Cholera has about disappeared, no cases having been reported during the week. The sanitary report shows 1 case of plague and 1 death, the body having been found in the street in the Chinese quarter of the city. One case of enteric fever (Indian) was also reported in the colony during the week.

On advice from P. A. Surg. J. C. Perry, chief quarantine officer for the Philippine Islands, that the restrictions against Asiatic steerage passengers had been removed at Philippine ports, this traffic was again resumed October 8, 1902.

JOHN W. KERR,
Assistant Surgeon.

The SURGEON-GENERAL.

EGYPT.

Reports on cholera.

CAIRO, EGYPT, October 20, 1902.

SIR: I have the honor to confirm the following cablegram to the Department regarding the cholera epidemic in Egypt:

CAIRO, EGYPT, October 18, 1902.

SECRETARY OF STATE, Washington:

Since 12th instant, 705 cases cholera, 636 deaths—all Egypt.—SMITH.
